

FOR IMMEDIATE RELEASE

Cycle & Carriage Strengthens Partnership with Stellantis, Bringing PEUGEOT and Leapmotor into the Fold

New home for Stellantis brands under Cycle & Carriage sets the stage for exciting product offensive

SINGAPORE, 1 FEB 2025 – Cycle & Carriage Singapore is proud to announce an exciting new chapter in its long-standing partnership with Stellantis, one of the world’s leading automakers and mobility providers, with a portfolio of 14 iconic brands. Joining Citroën, which Cycle & Carriage has represented faithfully since 2006, are two new additions — PEUGEOT and Leapmotor — marking a significant expansion of Cycle & Carriage’s portfolio in the dynamic Singapore market.

Cycle & Carriage will commence operations as the new distributor for PEUGEOT today, and is in the final stages of formalising an agreement to represent Leapmotor here. This move reflects the company’s commitment to offering greater value and choice to Singapore’s discerning car buyers and fleet operators, by consolidating three distinctive Stellantis brands under one roof.

“Our long partnership with Stellantis is built on a shared commitment to innovation, quality and customer satisfaction,” said Wilfrid Foo, Managing Director of Direct Motor Interests at Jardine Cycle & Carriage Limited. “With Citroën, PEUGEOT and soon Leapmotor under one roof, Cycle & Carriage is well-positioned to redefine the automotive experience in Singapore, offering greater choice, cutting-edge technology and superior service. 2025 marks an exciting time as we work to expand each brand’s presence in the market.”

EXCITING NEW PRODUCTS

Drawing from a comprehensive range of attractive and innovative vehicles that will appeal to both combustion and electric vehicle enthusiasts alike, Cycle & Carriage will lead a bold product offensive from Citroën, Leapmotor and PEUGEOT.

A progressive rollout of enticing new models is set to completely reinvigorate the product lineups of both French brands within two years, while Leapmotor's arrival will be heralded by an exciting addition to Singapore's EV market.

Among the many new vehicles on the way, three standout models will spearhead this product initiative:

Leapmotor C10

Leapmotor's first global model, the C10 is a mid-size electric SUV designed for versatility and practicality. Measuring 4,739 mm in length with a wheelbase of 2,825 mm, it offers a spacious interior that comfortably seats five. Built on Leapmotor's advanced LEAP 3.0 platform, it combines sleek design with functionality, making it ideal for families or professionals seeking modern mobility.

The C10 features a 14.6-inch central touchscreen and is available with a panoramic sunroof, as well as advanced driver-assistance systems, ensuring top-notch comfort and safety.

New PEUGEOT 5008

PEUGEOT's enhanced 5008 SUV delivers its hallmark blend of Allure, Emotion, and Excellence, while introducing significant updates that enhance its appeal in the family SUV segment.

Inside, the new 5008 features PEUGEOT's latest i-Cockpit design, highlighted by a 21-inch floating touchscreen that integrates seamlessly with the dashboard, providing intuitive access to vehicle controls and infotainment. With striking design,

premium features and refined craftsmanship, the new 5008 embodies PEUGEOT's signature brand of luxury.

New Citroën C5 Aircross

As shown by the C5 Aircross Concept, the latest evolution of Citroën's popular SUV introduces a bold new design that enhances both efficiency and presence on the road. Architectural elements and refined styling work together to optimise aerodynamics, while the new three-point light signature adds a distinctive touch, conveying modernity, technology and a bold, unique character.

The new C5 Aircross also marks Citroën's first use of the STLA Medium platform, a state-of-the-art foundation that delivers exceptional flexibility. Designed to accommodate multiple powertrains — including combustion, hybrid and full electric — it offers a seamless blend of efficiency and performance. In addition, the platform supports advanced driver assistance systems and a modern infotainment interface, ensuring a driving experience that is both intuitive and comfortable.

FROM STRENGTH TO STRENGTH

For nearly two decades, Cycle & Carriage has represented Citroën, establishing it as a trusted name in Singapore. Catering to drivers who value European design and practicality, Citroën has seen particular success with models like the C5 Aircross SUV, Grand C4 Spacetourer MPV and a range of light commercial vehicles.

In recent years, Citroën's electric Berlingo and Dispatch have led the charge in supporting businesses seeking greener transport solutions, earning recognition as Singapore's top Continental electric Light Goods Vehicles for three straight years from 2022 to 2024.

With PEUGEOT and Leapmotor joining the fold, Cycle & Carriage is expanding its portfolio to meet the needs of a wider range of customers. Each brings something valuable to the Singapore market.

PEUGEOT is synonymous with style, innovation, and premium quality, making it a natural fit for Cycle & Carriage's portfolio. Known for its distinctive design and exceptional engineering, PEUGEOT has earned a loyal following among drivers seeking vehicles that combine elegance with performance.

Cycle & Carriage's decision to bring Leapmotor into its portfolio reflects the brand's innovative strengths and alignment with Singapore's growing demand for accessible EVs. Known for its in-house development of electric motors, battery management systems and intelligent driving platforms, Leapmotor delivers efficient, reliable and competitively priced vehicles that will resonate with Singaporean drivers.

DEDICATED NEW HOME

With expanded product ranges on the way, Cycle & Carriage will commence renovations at its multi-brand complex at 239 Alexandra Road. Work has begun to create a dedicated new home for Citroën, PEUGEOT and Leapmotor, not only to support the product expansion, but also to enhance the renowned customer service that both private and fleet customers have come to expect from the company.

"Cycle & Carriage's long-standing history of excellence in automotive retail is what sets us apart as the ideal partner for Stellantis," said Wilfrid Foo. "Our expertise in delivering reliable, customer-centric solutions has made Citroën a household name for both personal and commercial vehicles. The addition of PEUGEOT, known for its luxurious cars and premium craftsmanship, and Leapmotor, a rising star in EV innovation, further strengthens our portfolio and positions Cycle & Carriage to continue delivering the best mobility solutions to all customers."

Whether it's families seeking stylish SUVs, businesses embracing sustainable mobility or drivers exploring cutting-edge EVs, Cycle & Carriage's expanded Stellantis lineup offers something for everyone.

About Citroën

Since 1919, Citroën has built cars and developed technologies and mobility solutions to respond to changes in the society. A brand with courage and innovation, Citroën places peace of mind and well-being directly at the heart of the customer experience and offers a wide range of models. From the unique Ami, an electric mobility product designed for cities, to sedans, SUVs and commercial vehicles, most of which are available in electric or rechargeable hybrid versions. A pioneering brand in service and attention personally and professionally to the customers, Citroën is present in 101 countries and has a network of 6,200 sales and service outlets worldwide. For more information about Citroën, visit the media website at <https://fr-media.Citroën.com>

About PEUGEOT

PEUGEOT combines all-around Excellence, Allure, and Emotion with the ambition to be the top-of-the-range generalist brand on a global scale. Building on its technological offensive strategy and the electrification of its range, the PEUGEOT brand enters the era of the energy transition with enthusiasm. Stimulating and rewarding driving, elegant design and uncompromising quality are the brand's commitment to its customers and contribute to the emotion provided by each PEUGEOT. Present in more than 160 countries at 10,000 points of sale, the brand sold almost 1,500,000 vehicles around the world in 2019.

About Leapmotor

Established in 2015, Leapmotor is a technology-driven intelligent electric vehicle (EV) company. The founder Mr. Zhu Jiangming is an electrical engineer who has over 30 years of technical experience. Leapmotor is headquartered in Hangzhou, Zhejiang Province, China, and its

business scope covers intelligent electric vehicle design, research and development, manufacturing, intelligent driving, electric motor control, battery system development, as well as cloud computing-based vehicle networking solutions.

As a technology-based enterprise, the core components of the Leapmotor are independently developed and manufactured, including electric powertrain and intelligent systems. The proportion of self-developed and self-manufactured parts accounts for 60% of the total vehicle cost and has successively launched leading intelligent electric technologies such as the industry's first Eight-in-One Electric Drive System, the industry's first mass-produced Cell-to-Chassis technology, and the industry's first "Four-Domain-in-One Central Integrated E/E Architecture".

Leapmotor adheres to a customer-centric value proposition, with products on sale including C10, C11, C01, T03, offering pure electric and extended range dual power options. In 2023, Stellantis invested in Leapmotor. In early May 2024, Stellantis and Leapmotor formed a joint venture called Leapmotor International B.V. to explore the international market.

About Stellantis

Stellantis N.V. (NYSE: STLA / Euronext Milan: STLAM / Euronext Paris: STLAP) is one of the world's leading automakers and a mobility provider.
